

#27 - ASSISTING WITH MOVING A PATIENT IN BED

(Partner Check-Off)

I acknowledge I have physically practiced and successfully learned the following skill(s):

Student: _____ Date: _____

	P1	P2	P3	Comments
1. Verified health care provider's orders.				
2. Gathered necessary equipment and supplies.				
3. Performed hand hygiene, and ensured patient privacy.				
4. Introduced self to patient and family.				
5. Identified patient using two identifiers, and compared these with ID bracelet.				
6. Assessed amount of weight to be lifted, and assessed for assistance needed to ensure safety of all involved.				
7. Moved patient with a drawsheet: <ul style="list-style-type: none"> a. Placed patient in appropriate position, and adjusted bed to proper height for both nurses. b. Removed pillow from patient's head, and had patient cross arms over chest. c. Rolled patient side to side to place drawsheet properly, and crossed patient's one leg over the other. d. Returned patient to appropriate position. e. Fanfolded drawsheet to patient's sides. f. Stood properly, shifted weight from front to back foot, and used drawsheet to move patient up to bed. 				
8. Moved patient with friction-reducing device: <ul style="list-style-type: none"> a. Positioned patient as in Steps 7 A-D, and ensured enough nurses were available to help, positioned nurses properly. b. Placed friction-reducing device under drawsheet by rolling patient side to side, crossed one leg over other, and returned patient to proper position. c. Had nurses grasp drawsheet and device properly, and followed steps 7 E-F to move patient up in bed. d. Removed device, and assisted patient to comfortable position. 				
9. Logrolled patient: <ul style="list-style-type: none"> a. Placed a small pillow between patient's knees. b. Crossed patient's arms over his or her chest. c. Positioned nurses properly around bed. 				

- d. Fanfolded drawsheet along side toward which patient was turning.
- e. Rolled patient properly on the count of three.
- f. Placed pillows along length of patient if appropriate.
- g. Leaned patient back toward pillows for support.

10. Helped patient to a comfortable position, and placed personal items in reach.

11. Placed call light within easy reach, and ensured patient knew how to use it.

12. Raised side rails and lowered bed to ensure patient safety.

13. Disposed of used supplies and equipment properly, left patient's room tidy.

14. Removed and disposed of gloves, performed hand hygiene.

15. Documented and reported patient's response and outcomes.

S = Satisfactory **U** = Unsatisfactory **NP** = Not Performed * = Must Perform to Pass

By signing below I acknowledge that I witnessed the skill performed and the student successfully passed the skill.
