

**#56 - POURING A STERILE SOLUTION****(Partner Check-Off)**

I acknowledge I have physically practiced and successfully learned the following skill(s):

Student: \_\_\_\_\_ Date: \_\_\_\_\_

	P1	P2	P3	Comments
1. Prepared the sterile field.				
2. Prepared to pour the sterile solution:				
a. Verified the contents and expiration date of the solution.				
b. Made sure the receptacle for the solution was placed near the edge of the table or other sterile work surface. Kept the receptacle away from the 1-inch border of the sterile field.				
c. Used a downward motion to remove the sterile seal and cap from the bottle.				
d. Held the solution bottle away from the sterile field, with the label facing the palm and the lip of the bottle 2.5 to 5 cm above the inside of the sterile receptacle.				
3. Slowly poured the necessary amount of solution into the container. Did not permit fluid to splash onto the sterile field.				
4. Did not recap the bottle. Discarded remaining liquid in container.				
5. Proceeded with sterile procedure.				

**S** = Satisfactory    **U** = Unsatisfactory    **NP** = Not Performed    \* = Must Perform to Pass
